DEPART: 9:00 RETURN: 4:30
NOTES: Bring a duffel bag or backpack with a towel, sunscreen, sack lunch and a drink. You may bring your sand buckets and shovels to play in the sand, or your life jackets if needed in the swim area. Please label all items with your child's name. The swim area is roped off securely for the non-swimmers. Students will be supervised by chaperones and on-duty lifeguards. This is as close to being at the beach, but in a safe, no-wave, fenced in lagoon.

Some interesting facts about Seaside Lagoon: "The large saltwater lagoon, offers trained lifeguard supervision. Besides swimming, the Lagoon offers a large sand area for sunbathing, children's play equipment, and volleyball courts. There is also a grassed area and luau shelter for day and evening events.

The Seaside Lagoon is a salt water facility. Water for seaside lagoon comes from the other side of the breakwater, at about 50 feet deep, travels to the nearby steam generating plant where they use it to cool the turbines. The water then travels under the street in large pipes to the Seaside Lagoon where it is chlorinated when entering the lagoon and de-chlorinated when leaving the lagoon back into the harbor. The Seaside Lagoon has approximately 1.5 million gallons of water and has a flow through rate of approximately 200,000 gallons per hour."

## Thank you for joining us this summer! <br> This is the end of the academic portion of our summer program, but WAIT...THERE'S MORE! <br> Reservations for Child Care from 8/6 through 8/14 should be turned in by 7/30.
